BRUMA
Flowing Art

A benchmark for efficiency and design.

Present on the market for over 70 years, BRUMA is synonymous with experience, quality and innovation in the creation of water taps that perfectly balance aesthetics with high performance.

The attention and dedication to the process of creating BRUMA water taps reflect the focus and importance that the brand gives to the design of its products and the provided user experience. A reflection of this are the awards with which the brand has been distinguished: Design Plus, Iconic Awards: Innovative Architecture e German Design Awards.

BRUMA's production process is increasingly sustainable and combines state-of-the-art industrial techniques with meticulous craftsmanship. This alliance between the innovative character of the brand and the expertise resulting from decades of experience is translated into more than 25 collections of versatile and efficient products.

With a history guided by innovation, BRUMA constantly seeks to live up to its precursor legacy and its mission continues to be, just like it was 70 years ago, to achieve perfection in the development of products that excel in beauty and sophistication, keeping its high standards of quality and efficiency intact.

Une référence en matière d'efficacité et de design.

Présent sur le marché depuis plus de 70 ans, BRUMA est synonyme d'expérience, de qualité et d'innovation dans la création de robinets qui équilibrent l'esthétique de leurs formes avec des performances élevées dans leur fonction.

L'attention et le dévouement au processus de création des robinets BRUMA reflètent l'attention et l'importance que la marque accorde au design de son produit et à l'expérience offerte. Cela se reflète dans les prix que la marque a remportés: Design Plus, Iconic Awards: Innovative Architecture et German Design Awards.

Le processus de production de BRUMA est de plus en plus durable et allie des techniques industrielles de pointe avec un savoir-faire artisanal méticuleux. Cette alliance entre le caractère innovant de la marque et le savoir-faire issu de décennies d'expérience se traduit par plus de 25 collections de produits polyvalents et performants.

Avec une histoire guidée par l'innovation, BRUMA cherche constamment à être à la hauteur de son héritage précurseur et, comme il y a 70 ans, sa mission continue à vouloir atteindre la perfection dans le développement de produits qui excellent dans la beauté et la sophistication de leur design, en maintenant intacts ses hauts standards de qualité et d'efficacité.

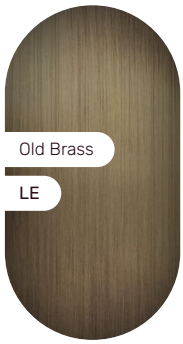
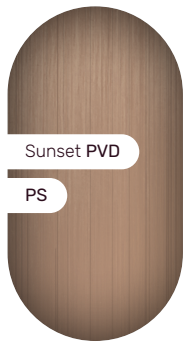
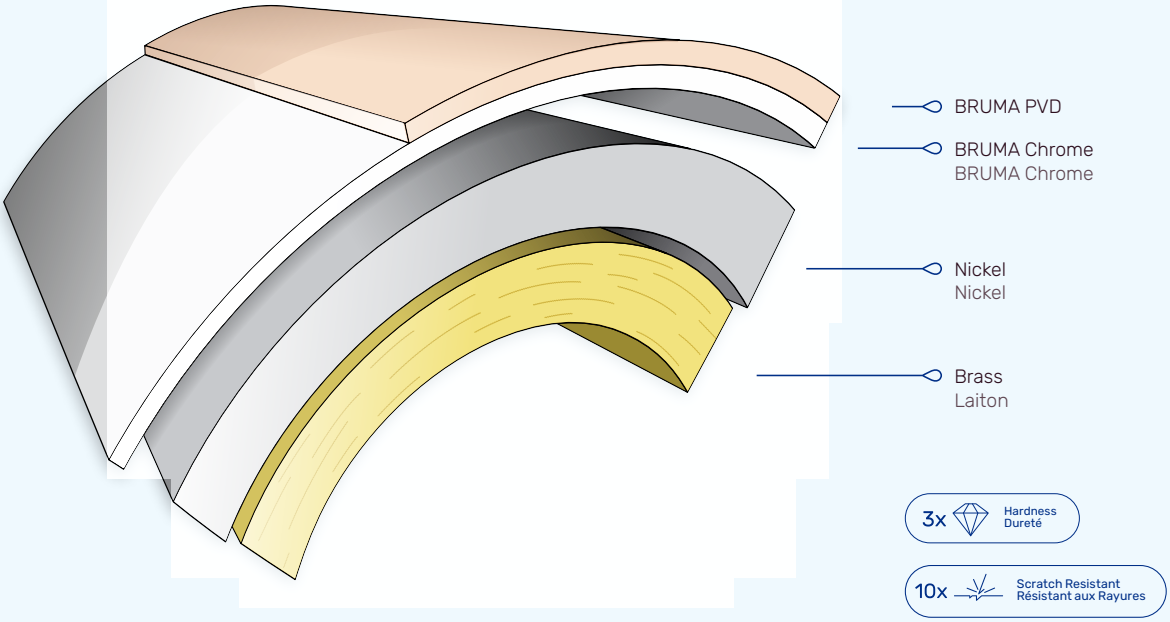
VARNISHED



PVD





BRUMA PVD

The alchemy of colours

Immerse yourself in the alchemy of colours and indulge in a captivating experience for the senses, provided by elegant, perfect and durable tones, certified by the guaranteed quality of BRUMA products.

BRUMA's PVD (Physical Vapour Deposition) coating process provides tremendous colour flexibility for even and refined finishes and exceptional durability, due to a surface that is **3 times harder and 10 times more scratch resistant** than a chrome finish.

Unlike other coating processes, **PVD has a lower ecological impact** as it results from a sustainable process that does not generate any waste.

L'alchimie des couleurs

Plongez dans l'alchimie des couleurs et vivez une expérience captivante pour les sens, assurée par des tons élégants, parfaits et durables, avec la garantie de la qualité BRUMA.

Le processus de revêtement PVD (Physical Vapor Deposition) de BRUMA offre une grande flexibilité de couleurs pour une finition uniforme et une durabilité exceptionnelle, grâce à une surface **3 fois plus dure et 10 fois plus résistante aux rayures** qu'une finition chromée.

Contrairement aux autres procédés de revêtement, le **PVD a un impact écologique moindre** car il résulte d'un procédé durable qui ne génère aucun déchet.

BRUMA SafeFlow Button

Safety and convenience in one move.

When it comes to safety, every detail matters, which is why we have created an innovation that makes our Bidet taps and mixers completely safe, promoting a worry-free user experience.

The SafeFlow Button system is simple and intuitive. To use it, simply press the button at the top of the support and turn counterclockwise. For closing, the movement is the same but in the opposite direction until you hear a click that proves the water flow cut-off. When closed correctly, the SafeFlow Button blocks the possible rotation of the support, avoiding constraint and incidents.

The SafeFlow Button innovation is a reflection and result of our commitment to our customers in creating solutions aligned with their expectations, quality and design, always having the primary focus on the safety and sustainability of our products.

Sécurité et commodité (pratique) en un seule geste.

En matière de sécurité, chaque détail compte, c'est pourquoi nous avons créé une innovation qui rend nos robinets et mitigeurs de bidet totalement fiables, favorisant une expérience utilisateur sans souci.

Le système safeflow Button est simple et pratique (intuitif). Pour l'utiliser, appuyez simplement sur le bouton situé en haut du support et tournez dans le sens inverse des aiguilles d'une montre.
Pour la fermeture où (l'arrêter), le mouvement est le même mais en sens inverse jusqu'au clic qui prouve la coupure du débit d'eau.
Lorsqu'il est correctement fermé, le bouton Safeflow bloque l'éventuelle rotation du support, évitant ainsi, contrainte et incidents.

L'innovation Safeflow Button et le reflet d'un résultat de notre engagement envers nos clients dans la création de solutions adaptées à leurs attentes, de la qualité au design, en mettent toujours l'accent sur la sécurité et la durabilité de nos produits.

BRUMA Brightest

An aesthetic triumph of enduring quality and shine

BRUMA's chromium plating process results in an intense, **long-lasting and resistant finish** that stems from the brand's continuous investment in advanced technology equipment, which enables the development of exquisite products that stand the test of time.

This process follows a strict quality control method called BRUMA Brightest, in which the monitoring carried out by our professionals ensures that the chrome finish of BRUMA products maintains the intensity of the original brightness, thus fulfilling the requirements of durability and resistance as well as ensuring that the water tap remains immaculate for many years.

Un triomphe esthétique de qualité et brillance permanents

Le processus de chromage de BRUMA se traduit par une **finition de brillance intense**, durable et résistante, grâce á l'investissement continue en équipements de technologie de pointe qui permettent le développement de produits de beauté durables.

Ce processus suit une méthode de contrôle de qualité stricte appelée BRUMA Brightest, où la surveillance effectuée par nos professionnels garantit que la finition chromée des produits BRUMA conserve l'intensité de la brillance originale, répondant ainsi aux exigences de durabilité et de résistance en garantissant que le robinet reste parfait pendant plusieurs années.

BRUMA Smooth Breeze

Turn mundane habits into unique sensations of pure pleasure.

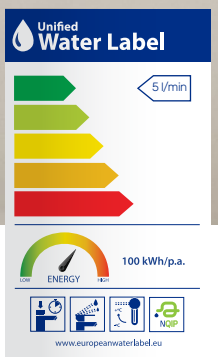
The exclusive **BRUMA Smooth Breeze** cartridge consists of high-quality ceramic discs, which provide a unique sensation of smoothness and precision in controlling the water flow and regulating temperature.

The performance, durability and reliability of ceramic discs are ensured through a thorough sintering and examination process that meets the requirements of a product of excellence.

Transformez des habitudes quotidiennes en sensations uniques de pure satisfaction.

La cartouche exclusive **BRUMA Smooth Breeze** se compose de disques en céramique de haute qualité, qui procurent une sensation unique de douceur et précision dans le contrôle du débit d'eau et régulation de la température.

Les performances, la durabilité et la fiabilité des disques en céramique sont assurées par un processus minutieux de frittage et d'examination qui répondent aux exigences d'un produit d'excellence.



BRUMA Cold Start

An experience of total comfort at the service of sustainability.

By combining the smoothness of operation of the BRUMA Smooth Breeze cartridge with the Cold Start technology, we have reached the point of creating a water tap that allows for **remarkable energy and water savings by reducing the waste of hot water.**

With Cold Start technology, when you open the water tap using the centred handle, you will be opening only cold water without requiring unnecessary heating. To obtain hot water gradually, simply turn the handle to 90 degrees to the left of the central position.

The option for BRUMA Smooth Breeze cartridges with Cold Start technology **allows you to save water and energy in your daily practices, without losing control of temperature and water flow.**

Une expérience de confort total au service de la durabilité.

En alliant la douceur de fonctionnement de la cartouche BRUMA Smooth Breeze avec la technologie Cold Start, nous avons réussi à créer un robinet qui permet une **remarquable économie d'énergie et d'eau en réduisant le gaspillage d'eau chaude.**

Avec la technologie Cold Start, lorsque vous ouvrez le robinet avec la poignée centrée, vous n'ouvrirez que l'eau froide sans chauffer l'eau inutilement. Pour obtenir de l'eau chaude progressivement, il suffit de tourner le bouton à 90 degrés à gauche de la position centrale.

L'option pour les cartouches BRUMA Smooth Breeze avec technologie Cold Start **vous permet d'économiser de l'eau et de l'énergie dans vos pratiques quotidiennes, sans perdre le contrôle de la température et du débit d'eau.**

BRUMA EcoDrop

Water is the primordial element present in the origin of BRUMA

Its preservation is an essential commitment in the development of our products.

We take responsibility for efficiently managing this vital resource by equipping all our taps with **BRUMA Ecodrop** flow control systems.

This technology **uses a mixture of air and water to offer the same immersive experience** of comfort provided by a large flow, while using less water.

We affirm our commitment to the conscious use of this vital resource by providing solutions that regulate the flow and temperature of water, adaptable to the characteristics or needs of any project, and with evident energy savings and associated investments.

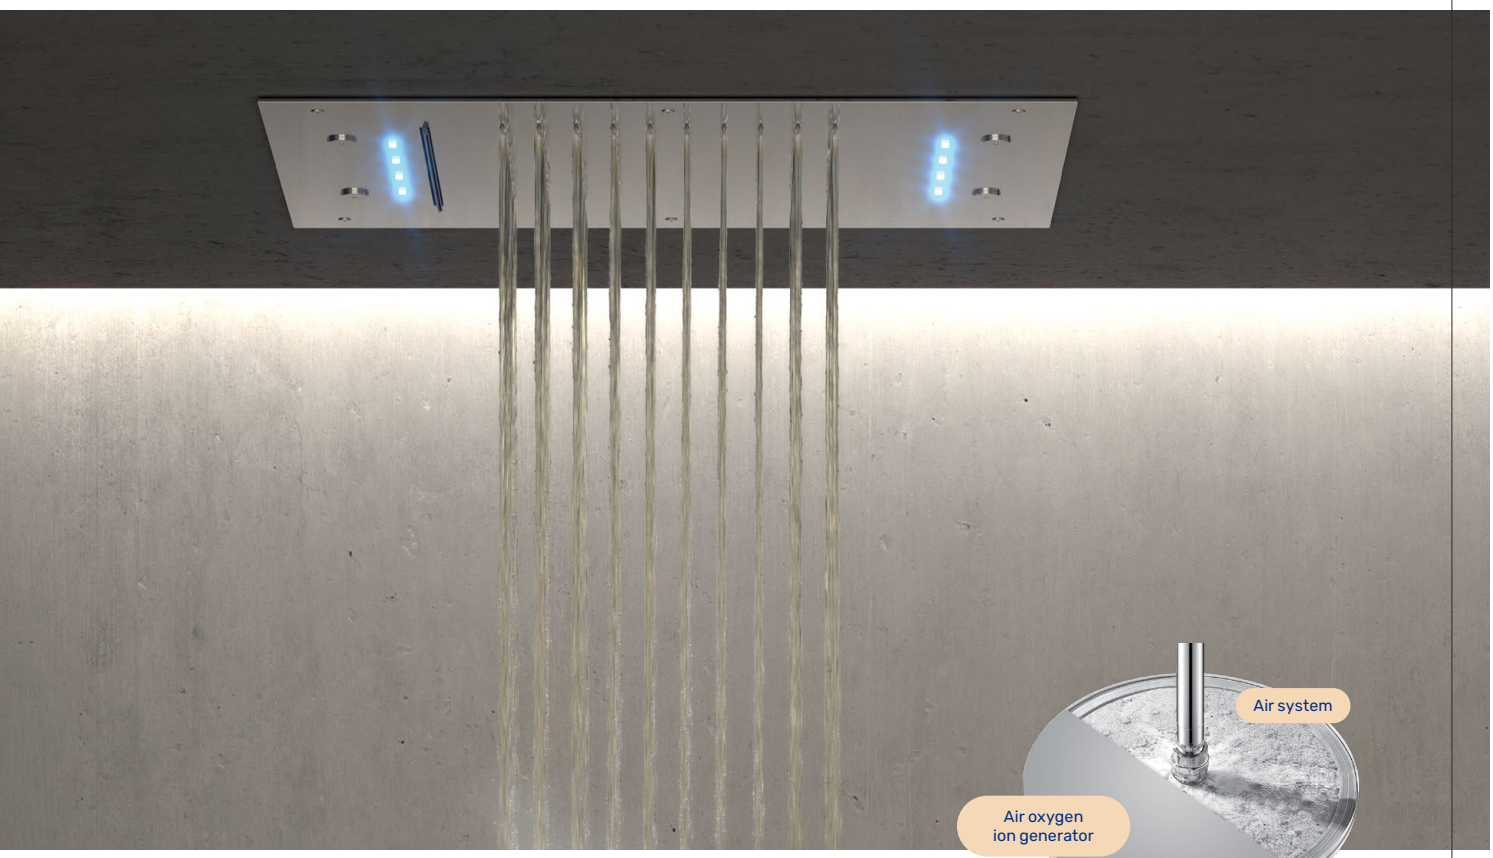
L'eau est l'élément primordial présent à l'origine de BRUMA

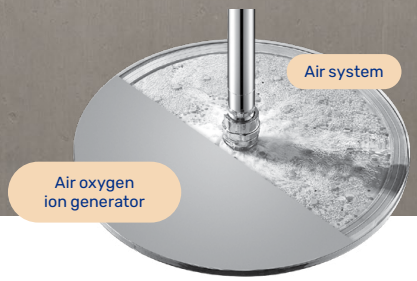
Sa préservation est un engagement essentiel dans le développement de nos produits.

Nous prenons la responsabilité de gérer efficacement cette ressource vitale en équipant tous nos robinets de systèmes de contrôle de débit **BRUMA Ecodrop.**

Cette technologie **utilise un mélange d'air et d'eau pour offrir la même expérience** immersive de confort procurée par un grand débit, tout en utilisant moins d'eau.

Nous affirmons notre engagement envers l'utilisation consciente de cette ressource vitale en fournissant des solutions qui régulent le débit et la température de l'eau, adaptables aux caractéristiques ou aux besoins de tout projet et avec des économies d'énergie évidentes et des investissements liés. of any project, and with evident energy savings and associated investments.





-30%

BRUMA Air EcoDrop

A new degree of immersion and efficiency

The **BRUMA Air EcoDrop** system transforms a routine shower into a sensory experience of therapeutic properties. Developed with the aim of improving the sensation of well-being and **efficiency in water** management, this system **provides a more intense and dynamic output of water, allowing an average water saving of 30% simultaneously.**

When infiltrated in the shower, the water mixes with the air, releasing a high number of oxygen ions (1L of water is completely mixed with 3L of air). Thus, the water flow becomes progressively more accentuated and lighter at the same time, resulting in an absolutely unique sensory experience.

The **Air EcoDrop** system is yet another evidence not only of our commitment to creating new solutions in line with the expectations of beauty and quality of a BRUMA product, but also of new products that innovate in the field of efficient water management.

Un nouveau degré d'immersion et d'efficacité

Le système **BRUMA Air EcoDrop** transforme une douche de routine en une expérience sensorielle aux qualités thérapeutiques. Développé dans le but d'améliorer la sensation de bien-être et d'efficacité dans la **gestion de l'eau**, ce système **offre un débit d'eau plus intense et dynamique, permettant une économie d'eau de 30% en moyenne en simultanée.**

Lorsque infiltrée dans la douche, l'eau se mélange á l'air, libérant un grand nombre d'ions d'oxygène (1L d'eau se mélange complètement à 3Ld'air). L´écoulement de l'eau devient ainsi progressivement plus accentué et en même temps plus léger, offrant une expérience sensorielle absolument unique.

Le système **Air EcoDrop** est un reflet non seulement de notre engagement à créer de nouvelles solutions selon les attentes de beauté et de qualité d'un produit BRUMA, mais aussi de nouveaux produits qui innovent par une gestion plus efficace de l'eau en tant que ressource essentielle.

Hydrotherm 38º

Innovation for the benefit of smoothness and safety

BRUMA thermostatic water taps offer a greater level of comfort and safety in daily tasks, also contributing to greater water and energy savings through the efficiency of their innovative operation.

In order to prevent the risk of possible scalding, the **SafeStop safety button blocks** the rotation of the handle at 38°C.

In the event of a cold water failure, the **AntiScald system** automatically switches off the hot water flow, ensuring the user's protection.

By ensuring smooth, precise and stable control of temperature and water flow, the sophistication of these water taps provides a more pleasant, immersive and relaxing shower experience.

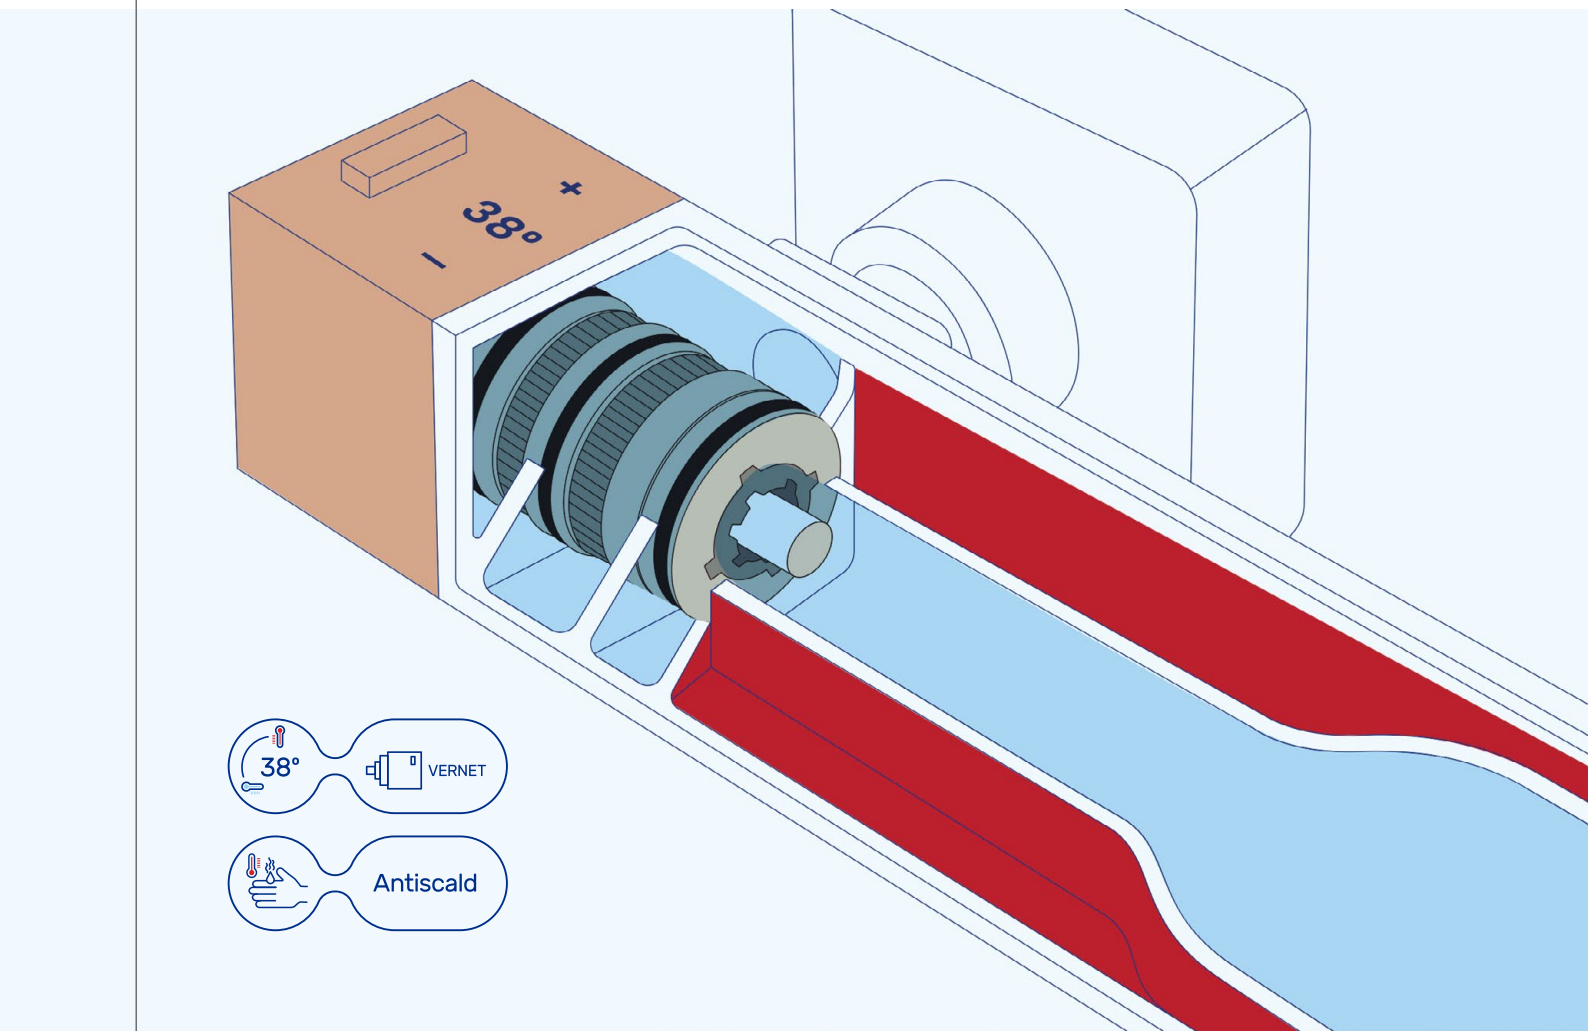
L'innovation au service de la douceur et de la sécurité

Les robinets thermostatiques BRUMA offrent un plus grand niveau de confort et de sécurité dans les tâches quotidiennes, contribuant également à une plus grande économie d'eau et d'énergie grâce à l'efficacité de leur fonctionnement innovant.

Afin d'éviter tout risque de brulures, le bouton de sécurité **SafeStop bloque** la rotation de la poignée á 38°C.

En cas de panne d'eau froide, le **système AntiScald coupe** automatiquement l'eau chaude, assurant ainsi la protection de l'utilisateur.

En assurant un contrôle en douceur, précis et stable de la température et du débit d'eau, la sophistication de ces robinets offre une expérience de douche plus agréable, immersive et relaxante.and relaxing shower experience.



AISI 316/L

Stainless Steel

Raw materials are the essence of exclusivity. We believe in the real value of the raw materials we work with and the role they play as an essential part of the quality of the products we develop.

Its strong ecological nature, quality and high resistance to corrosion caused by external agents, such as saline environments or sulphurous water, turn **AISI 316/L stainless steel** into a valuable ally in the creation of unique solutions on the market.

As a noble and ecologically neutral raw material, it guarantees total compliance with the highest standards of quality, precision and durability that BRUMA is committed to offering.

Acier inoxydable

La matière première comme essence de l'exclusivité. Nous croyons en la valeur réelle des matières premières avec lesquelles nous travaillons et au rôle qu'elles jouent en tant qu'élément essentiel de la qualité des produits que nous développons.

Son fort caractère écologique, sa qualité et son extrême résistance á la corrosion causée par des agents externes, tels que les environnements salins ou les eaux sulfureuses, nous montre **l'acier inoxydable AISI 316/L** comme un allié précieux dans la création de solutions uniques sur le marché.

En tant que matière première noble e écologiquement neutre, ce matériau garantit le respect des plus hauts critères de qualité, de précision et de durabilité que BRUMA s'engage à offrir.

Sales' general conditions

Whenever a client formalizes an order, he/she accepts, under any circumstances, the following sales' general conditions:

Prices:
These table prices can be changed without previous announcement. Orders are only considered when confirmed. Prices do not include VAT and are valid while supplies last, except in case of stock shortage or typographical error.

Payments:
Payment conditions, which are specified in the invoices, are changeless. Any delay concerning the invoices' payment will lead to incomes' payment. Any payment out of the agreement conditions will give BRUMA the right to suspend goods' delivery, even if the orders were already accepted. Any payment cannot be delayed in case of complaints. Goods are BRUMA's property until the total invoices' payment.

Deliveries:
Delivery prompts will always be foresights; clients cannot demand any indemnity from BRUMA for any orders' delivery delay. Restitutions are not accepted, except those which were previously agreed with the commercial area.

Complaints:
Any complaint concerning product's quantity must be done till 8 days after the order's reception. After that, BRUMA assumes the goods as definitely accepted. BRUMA reserves the right to make changes, either in goods or finishing, and to cancel or suspend the production of any of its goods and/or orders – clients cannot demand any indemnity for the above reasons.
For all products installed in public use locations the warranty is as stipulated by the laws in force.

BRUMA reserves the right to make changes or modifications, or to discontinue any product in the BRUMA line without prior notice.

The current price list revokes and replaces the previous ones.

Conditions générales de vente

Pour formaliser une commande, le client accepte, sans aucune résèrve, les conditions générales de vente suivantes:

Prix:
Les prix de cette liste peuvent être modifiés sans préavis. Les commandes sont considérées comme telles, seulement après la confirmation de celles-ci.
Les prix sont sans TVA incluse et sont valables, sauf rupture de stock ou erreur typographique.

Paiements:
Les conditions de paiement spécifiées sur la facture ne sont pas modifiables. Le retard du paiement des factures après date stipulée, generera le paiement d´intérêts. Le paiement, en dehors des conditions accordées, donnera le droit à BRUMA de suspendre les livraisons de marchandises, même si les commandes ont déjà été acceptées. En cas de réclamation, le paiement des factures doit quand même être effectué. La marchandise reste la propriété de BRUMA jusqu´au paiement total de toutes les factures en cours.

Livraisons:
Les délais de livraison seront toujours prévisionnels. Le client ne pourra, en aucun cas, exiger une indemnisation pour le retard de la livraison de la marchandise commandée. Nous n´acceptons pas d´annulations de commandes qui ne soient pas en accord avec le département commercial.

Réclamations:
Toutes les réclamations en relation avec la quantité des produits livrés, deveront être effectuées jusq´au 8° jour après la réception de la marchandise. Aprés cette date, nous considèrerons la marchadise comme définitivement acceptée. BRUMA se résèrve le droit d´effectuer des changements aux produits ou finitions des mêmes et à annuler ou suspendre la production de tous ses produits et/ou commandes.
Pour tous les produits installés dans des locaux à usage public, la garantie est celle indiquée par la loi en vigueur.

BRUMA se réserve le droit d'effectuer des échanges ou des modifications ou de discontinuer des produits sans avis préalable pour tout produit de la gamme BRUMA.

Cette liste de prix annule et subsitue la précédente.
