Quello che ci ha fatto innamorare di questo lavoro, consiste nel creare ogni giorno qualcosa di nuovo. La decorazione di spazi diventa un elemento complementare per l'architetto e l'interior design, ma allo stesso tempo completa ciò che la mente sviluppa e che contemporaneamente prende vita. Il presupposto principe del nostro servizio si basa nel coordinarsi con il fruitore. Il processo produttivo e di stoccaggio sono gestiti al nostro interno, con coordinazione nelle tempistiche di produzione e consegne organizzate in modo capillare. I materiali usati, hanno la peculiarità di essere molto pratici nella posa rispetto ad un recente passato e possono essere impiegati per interno, per esterno e per zone umide, personalizzabili a proprio gusto sempre nel rispetto dei parametri ecologici. I materiali sono tutti certificati, e sono stampati con tinte ecologiche certificate.

What makes us falling in love with this job, is creating something new every day. Decorating spaces becomes a complementary element for the architect and for the interior designer, and at the same time completes what the mind develops and which consequently comes to life. The main premise of our service is based on coordinating with the user. We produce and storage internally, coordinating production times and organizing deliveries in a capillary way. The materials we use have are practical in laying compared to a recent past and can be used for interiors, for the outdoor and for wet areas; customized according to your taste, always respecting ecological parameters. The materials are all certified, and are printed with certified ecological inks.

La nuova proposta TAPLAB per creare parati personalizzati è la linea Modular. Con questa impostazione possiamo creare un'infinità di combinazioni. Il cliente, in relazione ai propri gusti decorativi, potrà abbinare i vari moduli della collezione.

The new TAPLAB proposal for creating customized wall coverings is the Modular line. Through this line an infinite number of combinations is possible. According to their own decorative taste, our clients can match several modules from the collection.

I moduli sono stati codificati con una lettera in maniera da poter creare la combinazione desiderata. Quindi, per una corretta richiesta, andrà indicato il nome (es. Screen), il codice riferimento decoro (es. quella con fondo scuro 288_001) e i moduli scelti (es. B+C+D). La richiesta corretta della componibilità elencata a pagina 63 sarà la seguente: Screen cod. 288_001_B+C+D.

Per ogni richiesta il nostro ufficio tecnico invierà una simulazione per approvazione.

Modules have been letters encoded in order to create the required combination. For a correct request, please use name (e.g. Screen), decor reference code (e.g. the one with dark background 288_001) and chosen modules (e.g. B+C+D).

The correct request for modularity listed on page 63 will be as follows:

Screen cod. 288_001_B+C+D

For each request our technical department will send you a simulation for approval.
