 Cristallo  
**DE' MEDICI**  
Pb 24%

Dalle più antiche e nobili arti vetrarie.  
From the ancient and noble glass arts.

Collezioni esclusive, realizzate in cristallo purissimo al 24% pb. Si tratta di prodotti raffinatissimi, soffiati a bocca e molati a pietra con abilità, dai nostri maestri secondo le più antiche e nobili arti vetrarie. Nessuna macchina, nessuna tecnologia, ma solo prodotti d'arte, classici, contemporanei ... futuristici.

Exclusive collections created from pure crystal with 24% lead content. These utmost refined products are mouth-blown and bevelled in stone by our master artists according to the most ancient and noble glass arts. Neither machines nor technology are employed in the process, resulting in classical, contemporary or futuristic art products.

Dalla tradizione millenaria un oggetto unico e prestigioso.  
Creating masterpieces with artisan traditions.

Il vetro di Murano è da sempre sinonimo di raffinatezza, leggerezza ed eleganza. I maestri vetrai hanno saputo sviluppare tecniche di lavorazioni privilegiate, nel rispetto della millenaria tradizione che rende il vetro di Murano un prodotto unico, prestigioso e inimitabile.

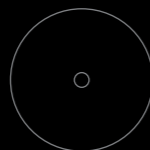

Murano glass is a synonym for elegance and timelessness. By combining innovative techniques with traditional artisan workmanship, unique, prestigious and inimitable objects are created.

## VetroFreddo®

L' esaltazione della materia attraverso l'anima del suo colore.  
A unique material. Expressive colours.

Il Vetro Freddo® è un materiale innovativo, composto da pigmenti vetrosi e resine.

La sua caratteristica principale è la sua versatilità nell'adattarsi a qualsiasi tipo di forma.

È l'esaltazione della materia che si esprime attraverso l'anima del suo colore. La natura della sua materia, composta da pigmenti vetrosi e pertanto trasparenti, permette al VetroFreddo® di avere uno dei suoi principali punti di forza, e cioè la possibilità di esprimersi in colori trasparenti, traslucidi od opachi. Nessun limite quindi a livello cromatico e, oltre alla gamma di colori già esistente, è possibile scegliere in base alle proprie esigenze, uno dei numerosi colori presenti nella mazzetta "RAL". Il VetroFreddo® ha una resistenza termica di circa 100°C e può essere lavorato con gli stessi utensili del marmo o del vetro. Tutti gli oggetti in VetroFreddo® si possono lavare con qualsiasi tipo di sapone o detergente neutro non granulare, usando panni o spugne non abrasive. In caso di graffi superficiali, si può ripristinare l'oggetto intervenendo con un panno imbevuto di olio d'oliva o una semplice crema per le mani. In caso di graffi più profondi, è possibile ripristinare con una speciale carta vetro suggerita dal produttore in base al colore o al tipo di oggetto.

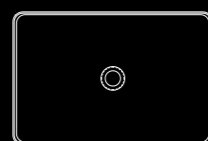

VetroFreddo® is an innovative material composed of glass pigments and resin. Its major characteristics are its versatility in adapting itself to any form or shape imaginable. The material's unique characteristics are expressed through the soul of its colour, which can be in clear, semitransparent or opaque form, due to the material composition of glass pigments. No limits exist in regards to colour. Apart from the existing range of colours, any colour from the "RAL" colour scheme can be chosen. VetroFreddo® is temperature resistant up to approximately 100°C and can be worked with and carved just as marble or glass. All objects designed with the material VetroFreddo® can be cleaned with any type of non-granular soap, using soft sponges or tissues. In case of superficial damage (scratches), the damaged area should gently be rubbed with a sheet soaked in olive oil. In case of deeper scratches or damage, a special replacement glass paper is available from the manufacturer for every colour and type of object.

Tradizione senza tempo.  
Timeless tradition.

La terra come fonte di ispirazione per rappresentare colorazioni e sensazioni tattili con finiture bicolore e texture esterne. Terra di Siena una collezione di lavabi in ceramica realizzati interamente a mano. Lievi differenze cromatiche e imperfezioni di forma sono testimonianza dell'artigianalità del processo produttivo.

Earth is the source of inspiration for colours and tactile sensations with bi-colour finishes and textural exteriors. The Terra di Siena collection of ceramic washbasins is made entirely by hand. Slight colour differences and shape imperfections are testimony to the craftsmanship of the production process.

# Alumix

lega d'alluminio

L'hi-tech, elegante e contemporaneo.  
Distinguishing with contemporary elegance.

Prodotto hi-tech, elegante e contemporaneo che nasce da una fusione di lega di alluminio. Glass Design lancia una nuova collezione di lavabi in alluminio AL 20/10, con certificazione UNI EN 2409, con uno spessore di soli 2 mm. La serie ICONIK risulta super leggera e resistente, dal tocco moderno e accattivante.

A high-tech product, both elegant and contemporary, born from a merger of aluminum alloys. Glass Design launches a new collection of aluminium AL 20/10 washbasins, with the UNI EN 2409 certification, with a thickness of only 2 mm. The ICONIK series is super light and resistant, with a modern and attractive touch.
